TABLE VIII. EXPERIENCE RATINGS OF TEACHERS

This summary gives the experience ratings for 1958-59 of those teachers paid from the State Nine Months' School Fund; vocational teachers and those paid from local funds are excluded. Since only 12 increments were allowed on graduate certificates, 11 on Class A, 6 on Class B, etc., the experience shown is not the actual number of years taught by the number for which there was compensation.

Classified principals and supervisors are not included.

TABLE IX. INSTRUCTIONAL AND SUPERVISORY PERSONNEL

This table gives for each administrative unit of the State during 1958-59 a distribution of instructional and supervisory personnel—employed from all sources of funds—by race and levels of instruction. Where fractions appear, teachers are working in both elementary and secondary fields or teaching and supervising.

The summary shows for North Carolina the number of teachers in elementary schools (grades 1-8), the number in high schools (grades 9-12), the number of vocational teachers, of principals and supervisors; then relates the number of teachers to average daily membership and average daily attendance, as given in Table I.

TABLE XI. NUMBER OF ELEMENTARY SCHOOLS
TAUGHT—BY SIZE

This table shows by race for each county and city system of the State during 1958-1959 the number of elementary schools taught—distributed by size (number of teachers and principals employed).

An 8th grade housed with the high school is not counted an elementary school, but two grades (7th and 8th) as part of junior high school are considered an elementary (grammar) school in this enumeration.

The summary gives the North Carolina total for each race with division between counties and cities. There also appears the number of union schools: those giving two levels of instruction in same building.

This table shows by race for each county and city system of the State during 1958-1959 the number of high schools taught—distributed by size (number of teachers and principals employed).

The summary gives the North Carolina total for each race, with division between county and city units. There is also shown the number of union schools; those offering two levels of instruction in same building.

TABLE XIII. NUMBER OF SCHOOLS TAUGHT—BY GRADE LEVEL

This summary shows by race for 1958-1959 the number of schools which attempted various grade-levels of instruction. For elementary (grades 1-8) there are three types of schools; primary, grammar and other. Primary schools are defined as those which go no higher than grade 5, beginning with the first grade; grammar schools teach only the intermediate grades, as 4-6, 6-8 or 7-8; the other schools cover grades 1-6, 1-7 or 1-8.

For secondary schools the grouping is by years of instruction above eighth. One-year high schools teach only 9th grade, two-year high schools have grades 9-10, etc. A junior high school of grades 7-9 is considered here as a grammar school (grades 7-8) and a one-year high school.
